Do I have to be in great shape to ride a Segway?

Riders must be able to easily and quickly step on and off without assistance, which requires abilities similar to climbing stairs without any assistance or use of a handrail. Rider must be able to lean in four directions to operate and steer the Segway. Lastly, participants should be reasonably fit and able to stand for a duration of the tour which will typically be between one to one and one half hours. We will make multiple stops including a rest break.

Absolutely! There will be great photo opportunities along the way so cameras are highly encouraged, but please leave other bulky items behind. We will also ask you, for the purposes of safety, not to take pictures, use your cell phone or i-pod while your Segway is in motion. We will make plenty of stops, and by all means if you see something you'd like to photograph, say the word and your guide will pause for you.
